# Shubham Dhakre

Computer Science & Engineering Student | Aspiring Software Engineer

Akola, Maharashtra, India | 7620180322 | shubhamdhakre7@gmail.com | GitHub : github.com/ShubhamDhakre
Portfolio : shubhamdhakre-portfolio.vercel.app | LinkedIn : www.linkedin.com/in/shubhamdhakre

## PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong interest in software development, web technologies, backend development, and problem-solving. Familiar with building web applications using JavaScript, React, Node.js, Express.js, and MongoDB. Interested in developing practical projects, strengthening software engineering fundamentals, and learning new technologies through hands-on implementation.

## TECHNICAL SKILLS

- Programming Languages: JavaScript, Python
- Frontend Development: HTML, CSS, React.js, Vite
- Backend Development: Node.js, Express.js, REST APIs
- Database: MongoDB
- Tools & Platforms: Git, GitHub, VS Code, MongoDB Atlas
- Core Concepts: Object-Oriented Programming, Data Structures and Algorithms, Authentication, JWT, API Development

## PROJECTS

**Full-Stack Video Streaming  Backend API**

- Developed scalable REST APIs with secure authentication using JWT (access and refresh token rotation) and bcrypt password hashing.
- Built a media upload pipeline using Multer and Cloudinary to process and store video files, thumbnails, and user avatars.
- Implemented database models and controllers for video publishing, channel subscriptions, comments, and user watch history.

**Real-Time Chat Application**

- Currently developing a real-time messaging application using Socket.io and Express for bi-directional communication and active user presence tracking.
- Implementing secure user authentication and protected messaging routes using JSON Web Tokens (JWT) and bcrypt.
- Building a responsive React frontend integrated with MongoDB to handle chat history, user profiles, and instant messaging.

**Personal Portfolio Website**

- Deployed a modern personal portfolio using React and Vite.
- Integrated Three.js and custom CSS animations to render dynamic 3D graphic models, theme customization (dark/light mode), and fluid micro-interactions across diverse screen sizes.
- Implemented clean component abstraction and modular CSS for maintainable styling

## EDUCATION

**Bachelor of Engineering (B.E) — Computer Science and Engineering**

- Shri Sant Gajanan Maharaj College of Engineering, Shegaon
- Expected Graduation: 2027

**Higher Secondary Certificate (HSC) — Computer Science Stream**

- Shri Samarth Junior College of Science, Akola
- Year of Completion: 2023

**Secondary School Certificate (SSC)**

- Shantiniketan English Convent Primary School, Murtizapur
- Year of Completion: 2021

## CERTIFICATIONS & ACHIEVEMENTS

- HTML5 & CSS3 – Coursera
- JavaScript Essentials – Coursera
- Backend Development with Node.js & Express – Coursera
